

ROSTA INSIDE FOOD & BEVERAGE

Solutions for Increased Productivity & Output

THE CORE OF OUR EXCELLENCE

One Smart Concept, Endless Applications

It all started in 1944 with a clever invention. Today, ROSTA is the world's leading manufacturer when it comes to rubber spring, tensioning and damping solutions.

The ROSTA Element, an elastomer powered torsional spring, is central to our range of specialized machine components designed to provide a combination of useful functions.

WHY WORK WITH ROSTA

Efficiency & Productivity

- Increased Productivity
- Smooth Operations
- Quality Materials

Lower Total Costs

- Longer Service Life
- Maintenance-Free Operation
- Simple, Durable & Noiseless

**CUSTOMER
VALUE-ADD**

Service & Aftersales

- Global Presence
- 24/7 Support
- High Stock Level

Flexibility & Customization

- Control Linear & Rotary Motion
- Torsional Elastomer Spring Solutions
- Customized Engineered Solutions
- Digital Services & Engineering

Swiss made 

We are here to support your success. **Contact ROSTA today!**

ROSTA

INSIDE FOOD & BEVERAGE

At ROSTA, we understand the dynamic and demanding aspects of the food and beverage industry. Our process flow is tailored to reflect our expertise and insights of the unique challenges of this sector, where efficiency, hygiene and precision are paramount.

- In food processing, every stage – from raw material handling to packaging – demands the highest standards of reliability and quality.
- In beverage processing, the focus is on maintaining consistency and speed, while adhering to stringent safety standards.

Our ROSTA solutions play a significant role in optimizing the productivity of machines within the food and beverage processes. Our components not only streamline operations but also contribute to maintaining the highest levels of hygiene and safety, essential in this industry. Be smart put ROSTA INSIDE!

ANTI-VIBRATION MOUNTS 20

SCREENS (CIRCULAR & LINEAR)

Circular and linear screens are used for precise sorting and separation. Their functionality hinges on accurate and consistent performance. **ROSTA Oscillating Mountings not only enhance vibration control for improved accuracy and extended machine longevity, but the maintenance-free design ensures continuous operation, boosting efficiency and reliability.**

Customer benefits:

**MAINTENANCE
FREE**

**98% VIBRATION
ISOLATION**

**SUPPORTED LINEAR
MATERIAL FLOW**

**HIGHER
PRODUCTIVITY**

SCREENS (CIRCULAR & LINEAR)

Oscillating Mountings: AB / ABI / AB-HD / AB-D* / AB-LF (Patent Pending)

- High oscillation performance (screen side)
- Effective isolation (frame side up to 98%)
- No lateral tumbling
- Shortens the run-out phase considerably
- Overload/impact proof
- No “anti-pinch protection” required
- Long service life

* Linear screens only

GUIDED SHAKER CONVEYORS

Shaker conveyors, employing mechanical crank shaft drives, are widely used to transport and sort fruits, nuts, cereals, vegetables and tobacco. They come in various types: single mass, single mass with spring accumulators and dual mass with force-compensation. **ROSTA provides a comprehensive selection of components, including single and double rockers, spring accumulation elements and drive heads, to enhance efficiency and performance.**

Customer benefits:

**MAINTENANCE
FREE**

**LONG
LIFE CYCLE**

**REDUCTION OF
NOISE & VIBRATION**

**LOWER TOTAL COST
OF OWNERSHIP**

ONE MASS SHAKER SYSTEMS

Oscillating Mountings:

AU – Single Rocker

AUI – Single Rocker stainless steel

AS-C

- Excellent through guidance
- Smooth and long stroke motions
- Conveying speed up to 15 m/min
- Trough lengths up to 15 meters

ONE MASS SHAKER “NATURAL FREQUENCY” SYSTEMS

Oscillating Mountings: **DO-A – Spring Accumulator**

- Recommended for systems operating near resonance frequency
- High dynamic stiffness fully supports the eccentric motion
- Conveying speed up to 22 m/min
- Trough lengths up to 20 meters

TWO MASS SHAKER SYSTEMS

Oscillating Mountings: **AD-P – Double Rocker** **AD-C – Double Rocker** **ADI-P – Double Rocker**

- Excellent trough guidance
- Smooth and long stroke motions
- Damping dead centers
- Acceleration up to 5.0g
- Conveying speed up to 45m/min
- Trough lengths up to 25 meters

Oscillating Mountings: **ST – Drive Head** **STI – Drive Head stainless steel**

- Elastic drive head
- For crank shaft driven shaker conveyors
- Supports a smooth course of the shaker
- Loads up to 27 000 N

Oscillating Mountings: AR

- Adjustable arm length
- Long life
- Single or double mass installations
- High strokes
- Two-Way feeding direction with “Boomerang” configuration

Oscillating Mountings: AD-P – Double Rocker AD-C – Double Rocker

- Excellent through guidance
- Smooth and long stroke motions
- Long service life
- Easy assembling
- Heavy duty design

The Tobacco Industry represents one of ROSTA's historic markets. For decades, our double rocker arms have been instrumental in achieving high material speeds that are unattainable with alternative systems.

Oscillating Mountings:
AD-P – Double Rocker
(Customized Design)

Tobacco Industry Standard:
All moving parts in manufacturing
machines are orange colored

GYRATORY SIFTERS (STANDING & HANGING)

These sifters are crucial for the precise sorting of dry ingredients like spices, flour and powdered milk, designed for high-capacity, continuous sifting across diverse materials. **ROSTA's components, including universal joints and Oscillating Mountings are key for durable maintenance-free operation, enabling essential multi-directional movement for thorough and effective particle separation.**

Customer benefits:

**MAINTENANCE
FREE**

**REDUCTION OF
NOISE & VIBRATION**

**FAIL
SAFE**

**LONG
LIFE CYCLE**

GYRATORY SIFTERS (STANDING & HANGING)

Oscillating Mountings: AK – universal joint for support or suspension

- High oscillation performance (screen side)
- Effective isolation (frame side up to 98%)
- No lateral tumbling
- Shortens the run-out phase considerably
- Overload/impact proof
- No “anti-pinch protection” required
- Long service life
- Up to 40 000 N load

**Oscillating Mountings:
AV – universal joint for
support or suspension**

- Increased stroke
- Fail safe feature
- Durable lifespan
- Simple and fast setup
- Elliptical or circular motion option

GYRATORY SIFTERS (STANDING & HANGING)

BIN DISCHARGER

Bin Dischargers are essential for managing dry, powdery substances like flour, sugar and salt. **ROSTA's Oscillating Mountings improve functionality by stabilizing and smoothing the discharge process, preventing block-ages.** This enhances material flow, reduces maintenance needs and increases machine reliability and performance.

Customer benefits:

**MAINTENANCE
FREE**

**QUIET & SMOOTH
OPERATION**

**FAIL
SAFE**

**LONG
LIFE CYCLE**

Oscillating Mountings: AV / ST – universal joint for support or suspension AS-C

- High oscillation performance (screen side)
- Effective isolation (frame side up to 98%)
- No lateral tumbling
- Shortens the run-out phase considerably
- Overload/impact proof
- No “anti-pinch protection” required
- Long service life
- Up to 27 000 N load
- Fail safe

Hanging bin dischargers in flour mills, usually hung by coil springs or vulcanized rods, are complex to install and have the potential to fail, disrupting production. ROSTA ST or AV Oscillating Mountings aim to prolong the discharger's lifespan, boost productivity and in parallel lower maintenance costs.

GRIPPING SYSTEMS & PALLETIZERS

ROSTA Rubber Suspension units are ideal on production equipment where materials need to be held down or guided with precision. In palletizers precision is key for the robot to obtain a secure hold without damaging the material.

Customer benefits:

**MAINTENANCE
FREE**

**LONG
LIFE CYCLE**

**QUIET & SMOOTH
OPERATION**

**WIDE PRODUCT
CAPACITY RANGE**

Rubber Suspension Units: **DK-A / DK-C**

- Controlled pressure
- Easy to install
- Maintenance free
- Simplifies the machine design

Rubber Suspension Units: DW / DWI (Customized Design)

- Gentle clamping
- Gradual pressure application
- Low noise operation
- Maintenance free

Rubber Suspension Units: DR / DRI (Customized Design)

- Controlled pressure
- Easy to install
- Maintenance free
- Simplifies the machine design

BELT & CHAIN DRIVES

In food processing, the difficult-to-access chains and belt drives frequently result in lengthy machine downtimes. **ROSTA's maintenance-free tensioner devices and Motorbase significantly improve drive operation and lifespan by ensuring smooth, consistent force transmission that is crucial for belt drive efficiency.**

Customer benefits:

MAINTENANCE
FREE

REDUCE
DOWNTIME

REDUCTION OF
NOISE & VIBRATION

LONG
LIFE CYCLE

BELT DRIVES

Dynamic Tensioner Devices: Motorbase Series MB 55 & MB 75

- Fast and safe belt change, no realignment required
- Compensation of high start-up torque
- Constant transmission
- Better drive performance
- Energy cost savings

Dynamic Tensioner Devices: SE-I Tensioners Roller R – Tensioner accessory

- Available in INOX 304 and 316
- Easy to install
- Automatic compensation for belt elongation
- Maintenance free

CHAIN DRIVES

Dynamic Tensioner Devices: SE Tensioners Chain Rider P – Accessory

- Self-adjusting drive tensioner – set and forget!
- Increased drive performance
- Reduces wear and tear on ancillary drive components

ANTI-VIBRATION MOUNTS

Anti-vibration mounts, essential in the food and beverage industry, minimize vibrations and absorbs shocks from high-speed equipment such as mixers and packaging machines. All while prolonging equipment life, maintaining product quality and promoting a safer, quieter workplace. **ROSTA's components play a key role in improving machinery stability and durability for efficient food and beverage processing.**

Customer benefits:

**MAINTENANCE
FREE**

**LONG LIFE
CYCLE**

**REDUCTION OF
NOISE & VIBRATION**

**LOWER TOTAL COST
OF OWNERSHIP**

Anti-Vibration Mounts: AB / AWI

Big bag applications

- Equally distribute material (coffee, flour, corn) inside bags
- Provide optimal vibration dampening
- Ensure the best solution for material distribution

Anti-Vibration Mounts: **V**

- Low frequencies and a high damping effect
- Effective isolation of impacts and vibrations (High absorption of reactive forces)
- Solid-borne noise reduction

Anti-Vibration Mounts: **ESL**

- Low frequencies and a high damping effect
- Good isolation of impacts and vibrations (High absorption of reactive forces)
- Solid-borne noise reduction

Anti-Vibration Mounts: **NOX (Stainless steel leveling feet)**

- Low frequencies and a high damping effect
- Good isolation of impacts and vibrations (High absorption of reactive forces)
- Solid-borne noise reduction
- Stainless steel 1.4301 and 1.4305
- Insulating plate (oil and acid proof)

ROSTA SUPERIOR SWISS QUALITY AT A GLANCE

ESTABLISHED HERITAGE: Founded in Switzerland in 1944, our roots embody a legacy of superior quality and precision that is recognized worldwide.

IMPRESSIVE SALES VOLUME: Our commitment to quality and reliability, across all our core markets, has resulted in an impressive annual sales volume of over 1.5 million units.

QUALITY ASSURANCE: Our commitment to quality is reinforced by rigorous in-house quality processes and our ISO certification, ensuring our products meet the highest standards.

CUSTOMIZED SOLUTIONS: We are known for developing tailored solutions to meet the specific needs of our clients, setting us apart in our markets.

GLOBAL FOOTPRINT: Our strategic worldwide presence allows us to spread our Swiss quality on a global scale.

EXTENSIVE DISTRIBUTION NETWORK: We ensure our industry-specific products reach a wide array of customers through our robust distribution network, extending across over 40 countries.

IN-HOUSE PRODUCTION: With most of our production taking place in Switzerland, we maintain full control over the quality and efficiency of our manufacturing process.

UNPARALLELED CUSTOMER SUPPORT: Our global presence is strengthened by personalized customer support, offering assistance and guidance to customers across all five continents.

CORE MARKETS: Specializing in five core markets – recycling, mining, agriculture, food & beverage, and eMobility – our expertise also extends to various other markets, enabling us to serve a wide range of customer needs effectively.

COLLABORATIVE INNOVATION AT OUR CORE: Our R&D department works closely with application engineers, fostering a culture of innovative and customized solutions, continuously evolving to meet market trends and demands.
