Solutions and Services

**Continental** 

Continental is a world leader in industrial rubber and plastic products and has the largest global footprint of any rubber products manufacturer.

Our knowledge and expertise allow us to deliver the most innovative and highest-quality products on the market. Plus, our extensive problem-solving experience across multiple industries and applications enables us to share innovations over our entire product offering. Which means we can deliver unexpected solutions and advanced improvements in situations where others can't.

We push the boundaries of what's possible, and we're constantly solving tomorrow's most challenging problems – today and every day.

### **It's Why We're Your Global Partner of Choice for Industrial Solutions.**

---

Continental offers a full breadth of industrial rubber products including:

- › Industrial Hose
- › Conveyor Belts
- › Power Transmission Belts
- › Hydraulic Hose and Fittings
- › Air Springs

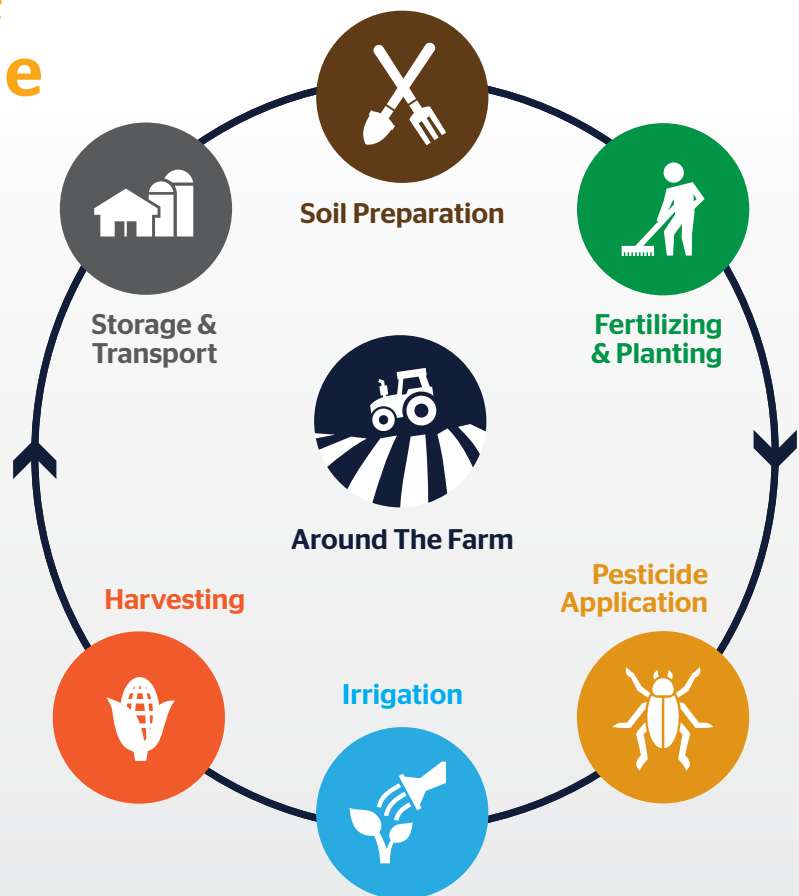

# Pushing the boundaries of what's possible.

Continental is recognized worldwide as a leader in the design, manufacture and supply of technologically advanced hose, air springs, shock absorbing mounts and specialty belts for the agriculture industry. We continue to create new developments for the field by incorporating advanced technology into our products by pushing the boundaries of what's possible. This ensures our products will always meet or exceed the highest specifications, the strictest environmental mandates and perform in the most extreme conditions.

## Solutions For The Entire Crop Cycle

Our portfolio encompasses a wide variety of solutions for agricultural machinery and equipment – from innovative transport systems, mounting elements, drive belts, industrial and hydraulic hoses to specialty belts for seeding and harvesting. Solutions that provide optimum efficiency, safety and operator comfort from planting to harvest.

## Hydraulic

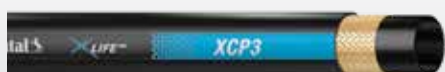

### X-Life XR16SC

X-Life XR16SC is for high-pressure service with tight bends needing abrasion resistance and flexibility. It is made for use with petroleum- and water-based hydraulic fluids. This hose has excellent impulse performance and flexibility, exceeding SAE 100R2 and SAE 100R16 standards.

<b>COLOR</b>	<b>HOSE ID</b>
	1/4" - 2"

### X-Life XCP3

X-Life XCP3 is for high-pressure hydraulic applications needing abrasion resistance. This hose is designed for use where higher pressures and a more flexible hose are required.

<b>COLOR</b>	<b>HOSE ID</b>
	1/4" - 1"

### X-Life XCP4

X-Life XCP4 is made for very high-pressure hydraulic applications requiring extra abrasion resistance. This hose has excellent impulse performance and flexibility.

<b>COLOR</b>	<b>HOSE ID</b>
	1/4" - 3/4"

## Air Springs

### Convolved

Used for downward movement on tillers and plows. This new technology has replaced the need for manual adjustment. Offered with imperial or metric threads. Available in single, double and triple crimped convolved assemblies.

**Standard Material**  
Natural Rubber (NR)

**Optional Materials**  
Chloroprene Rubber (CR)

Epichlorohydrin Rubber (ECO)

**Working Pressure (Max)**  
8 bar

# Fertilizing & Planting

## Off-Highway Hose

### SAE 20R3 D2 Heater Hose

Premium construction SAE 20R3 D2 Heater Hose is a high-quality heater hose designed to offer extra long service life on automotive and truck cooling system applications.

COLOR HOSE ID

3/8" - 1"

### Blue Xtreme Heater Hose

Premium construction Xtreme Heater Hose is designed for use in high temperature applications in today's automotive and truck cooling systems. Xtreme Heater Hose is an economical alternative to silicone hose in high temperature applications.

COLOR HOSE ID

5/16" - 1"

### SAE 30R7

This hose meets or exceeds SAE 30R7 specifications. It can be used for vacuum lines, emission/vapor, oil vent, diesel and up to B20 Biodiesel fuel lines, oil return and even as a coolant hose for return/overflow tanks. 30R7 may be used with diesel, but it is not a true fuel hose; rather, it is used as a drain hose for vapor.

COLOR HOSE ID

1/8" - 3/4"

### SAE J30R9

Low perm hose designed specifically for auto and truck fuel injection systems. Continental SAE J30R9 is CARB approved (Q-10-004) with a maximum fuel permeation of 15g/m<sup>2</sup>/day at 104°F (40°C) and certified to EPA EVTIPLINE110-001.

COLOR HOSE ID

1/4" - 1/2"

# Fertilizing & Planting

## Hydraulic

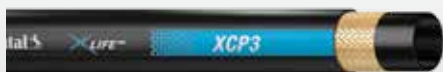

### X-Life XR16SC

X-Life XR16SC is for high-pressure service with tight bends needing abrasion resistance and flexibility. It is made for use with petroleum- and water-based hydraulic fluids. This hose has excellent impulse performance and flexibility, exceeding SAE 100R2 and SAE 100R16 standards.

COLOR	HOSE ID
	1/4" - 2"

### X-Life XCP3

X-Life XCP3 is for high-pressure hydraulic applications needing abrasion resistance. This hose is designed for use where higher pressures and a more flexible hose are required.

COLOR	HOSE ID
	1/4" - 1"

### X-Life XCP4

X-Life XCP4 is made for very high-pressure hydraulic applications requiring extra abrasion resistance. This hose has excellent impulse performance and flexibility.

COLOR	HOSE ID
	1/4" - 3/4"

### SR15N

SR15N is made for medium-pressure hydraulic applications including mobile, machine tool and agricultural applications, using petroleum or water-based hydraulic fluids.

COLOR	HOSE ID

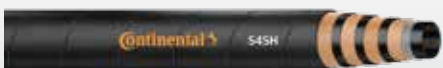

### HR4

HR4 is a low-pressure, high-temperature return line or suction line for petroleum- and water-based hydraulic fluids. It has a vacuum rating of 29 in Hg. HR4 has half the bend radius of the typical SAE 100R4.

COLOR	HOSE ID
	3/4" - 4"

### S4SH

S4SH is designed for very high-pressure, pulsating applications where petroleum-based hydraulic fluids are used.

COLOR	HOSE ID

### XCP5S

XCP5S is made for very high-pressure hydraulic applications requiring extra abrasion resistance. This hose has excellent impulse performance and flexibility.

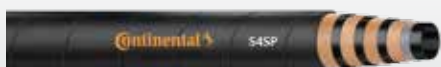

COLOR	HOSE ID
	3/8" - 2"

## Hydraulic

### S4SP

S4SP is made for very high-pressure applications used for petroleum-based hydraulic fluids.

COLOR HOSE ID

### XCP6S

XCP6S is for very high-pressure hydraulic applications requiring extra abrasion resistance. It has excellent impulse performance and flexibility.

COLOR HOSE ID  
3/8" - 2"

### XCP4S

XCP4S is for very high-pressure hydraulic applications requiring extra abrasion resistance. It has excellent impulse performance and flexibility.

COLOR HOSE ID  
3/8" - 2"

### Desert DR1SN

Desert DR1SN is for medium-pressure hydraulic oil lines used in mobile, machine tool and agricultural applications where higher temperature petroleum- or water-based hydraulic fluids are a factor.

COLOR HOSE ID  
1/4" - 2"

### Desert DR2SN

Desert DR2SN is for high-pressure hydraulic oil lines used in construction, machine tool and agricultural applications where higher temperature petroleum- or water-based hydraulic fluids are a factor.

COLOR HOSE ID  
1/4" - 2"

## Air Springs

### Sleeve

For seeder applications; uses air to place seed into the ground. For crops such as wheat, barley, oats and soybeans. Offered with imperial or metric threads in various sizes and shapes.

**Standard Material**  
Chloroprene Rubber (CR)

**Optional Materials**  
Natural Rubber (NR)

**Working Pressure (Max)**  
8 bar

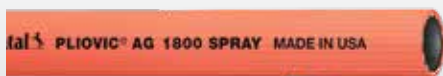

# Pesticide Application

## Industrial

### Ag Spray 1800

A lightweight, economical high-pressure hose for carrying air, water and many spray solutions in agricultural applications: including Xylene up to 10% concentration.

COLOR	HOSE ID
	3/8" - 3/4"

### NR Spray

A premium-quality, all-purpose hose for handling a variety of applications such as paint spray or agricultural spray. Will handle spraying paints, automotive finish paints, lacquers, thinners, turpentine, air, oil and a large variety of solvents and chemicals.

COLOR	HOSE ID
	1/4" - 1"

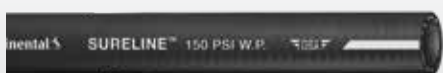

### Frontier

Frontier is an economical air and water hose covering a wide range of industrial, construction and agricultural applications. Available in 200 and 300 PSI working pressures.

COLOR	HOSE ID
	3/16" - 2"

### Sureline

For a wide range of industrial, construction and agricultural water discharge applications in which a general service water hose is needed.

COLOR	HOSE ID
	1/4" - 1 1/2"

## Hydraulic

### X-Life XR16SC

X-Life XR16SC is for high-pressure service with tight bends needing abrasion resistance and flexibility. It is made for use with petroleum- and water-based hydraulic fluids. This hose has excellent impulse performance and flexibility, exceeding SAE 100R2 and SAE 100R16 standards.

COLOR	HOSE ID
	1/4" - 2"

### X-Life XCP3

X-Life XCP3 is for high-pressure hydraulic applications needing abrasion resistance. This hose is designed for use where higher pressures and a more flexible hose are required.

COLOR	HOSE ID
	1/4" - 1"

### X-Life XCP4

X-Life XCP4 is made for very high-pressure hydraulic applications requiring extra abrasion resistance. This hose has excellent impulse performance and flexibility.

COLOR	HOSE ID
	1/4" - 3/4"

### SR1SN

SR1SN is made for medium-pressure hydraulic applications including mobile, machine tool and agricultural applications, using petroleum or water-based hydraulic fluids.

COLOR	HOSE ID

### HR4

HR4 is a low-pressure, high-temperature return line or suction line for petroleum- and water-based hydraulic fluids. It has a vacuum rating of 29 in Hg. HR4 has half the bend radius of the typical SAE 100R4.

COLOR	HOSE ID
	3/4" - 4"

# Pesticide Application

## Hydraulic

### XCP4S

XCP4S is for very high-pressure hydraulic applications requiring extra abrasion resistance. It has excellent impulse performance and flexibility.

**COLOR** HOSE ID  
3/8" - 2"

### XCP5S

XCP5S is made for very high-pressure hydraulic applications requiring extra abrasion resistance. This hose has excellent impulse performance and flexibility.

**COLOR** HOSE ID  
3/8" - 2"

### XCP6S

XCP6S is for very high-pressure hydraulic applications requiring extra abrasion resistance. It has excellent impulse performance and flexibility.

**COLOR** HOSE ID  
3/8" - 2"

## Power Transmission Belt

### Banded V belt

For drives with highly irregular load changes and sustained, high power transmission

### V belt

With low-stretch tension member and upgraded compound for high power transmission at high loads

## Air Springs

### Convoluted

Designed for vibration isolation or actuation. Offered with imperial or metric threads. Available in single, double and triple crimped convoluted assemblies.

Standard Material	Optional Materials	Working Pressure (Max)
Natural Rubber (NR)	Chloroprene Rubber (CR) Epichlorohydrin Rubber (ECO)	8 bar

# Harvesting

## Conveyor Belt

### Draper Belts

Harvests edible beans, grains and rice. Durable polyester design with high-performance features and belt properties to reduce downtime. Available in bulk widths with a variety of v-guide placements; ready-to-install available for select equipment.

WIDTHS	PLY	LENGTHS
36" - 42"	2-ply	150'

### Baler Belts

Forms tightly packed, round bales that preserve crop quality and protect against storage loss. Available in OEM-preferred top cover textures including Smooth, Mini-Rough, Rough, Chevron and Diamond.

WIDTHS	PLY	LENGTHS
4", 7", 36" and 72"	2-ply 3-ply	300'

# Storage & Transport

## Hydraulic

### SR1SN

SR1SN is made for medium-pressure hydraulic applications including mobile, machine tool and agricultural applications, using petroleum or water-based hydraulic fluids.

COLOR HOSE ID

### HR4

HR4 is a low-pressure, high-temperature return line or suction line for petroleum and water-based hydraulic fluids. It has a vacuum rating of 29 in Hg. HR4 has half the bend radius of the typical SAE 100R4.

COLOR HOSE ID  
3/4" - 4"

### Extended Life XCP4

Extended Life XCP4 is made for very high-pressure hydraulic applications requiring extra abrasion resistance. This hose has excellent impulse performance and flexibility.

COLOR HOSE ID  
1/4" - 3/4"

### XR16SC

Application: Hose has compact dimensions and tighter bend radius than 2SN for ease of assembly routing in machinery applications High pressure hydraulic oil based and water based hydraulic systems with small bending radius.

COLOR HOSE ID  
1/4" - 2"

## Hydraulic

### XCP4S

XCP4S is for very high-pressure hydraulic applications requiring extra abrasion resistance. It has excellent impulse performance and flexibility.

**COLOR** HOSE ID  
3/8" - 2"

### XCP5S

XCP5S is made for very high-pressure hydraulic applications requiring extra abrasion resistance. This hose has excellent impulse performance and flexibility.

**COLOR** HOSE ID  
3/8" - 2"

### XCP6S

XCP6S is for very high-pressure hydraulic applications requiring extra abrasion resistance. It has excellent impulse performance and flexibility.

**COLOR** HOSE ID  
3/8" - 2"

# Storage & Transport

## Transfer Hose

### Harvest

Harvest is primarily for dry food transfer. Use it for tank truck and/or in-plant applications for the transfer of dry, non-oily bulk foodstuffs.

COLOR HOSE ID

2" - 5"

### Exstatic

Exstatic hose is primarily for dry food transfer. Use it for tank truck and/or in-plant transfer of dry, bulk foodstuffs where there is a potential for electrical static buildup.

COLOR HOSE ID

2" - 5"

### Flextra Dry Material

A static dissipating/static conductive hose for tank truck and in-plant service. Used to convey nonoily abrasive materials such as sand, limestone and plastic pellets. Recommended where static buildup can be a problem.

COLOR HOSE ID

2" - 5"

### Spirathane PT

Spirathane PT is for the transfer of a variety of dry, bulk and abrasive materials. It is used in applications where static electrical buildup is common. This hose can be used for powders, plastic pellets and granular materials.

COLOR HOSE ID

1 1/2" - 6"

## Pressure Washer

### Nutriflex Suction & Discharge

Nutriflex S&D is for both dry food transfer and liquid transfer. For handling almost every type of dry bulk food material or liquid in gravityflow and vacuum service. Nutriflex S&D conforms to 3-A Sanitary, NSF-61 Compliant Tube, FDA Standards and is recommended for transmission of powder pellets or granular materials

COLOR HOSE ID

### Fortress Pressure Washer

Fortress Pressure Washer hose is for use on pressure washer machines with working pressures from 1200 to 3000 psi Applications include wash-down service in food processing plants, dairies, packing houses, bottling plants, breweries, canneries and creameries. its super abrasion and oil-resistant cover provides maximum protection against the adverse affects of oil and animal fats. The cover of our Fortress Wash-down hose incorporates Microban and also has an ARPM Class A rating for High Oil Resistance.

COLOR HOSE ID

### Neptune 3000

Neptune 3000 is For use on pressure washer machines with working pressures up to 3000 PSI.

COLOR HOSE ID

### Neptune 4001-R

Neptune 4001-R is for high-pressure washer equipment with working pressures up to 4000 PSI.

COLOR HOSE ID

 3/8"

# Storage & Transport

## Power Transmission Belt

### Banded V belt

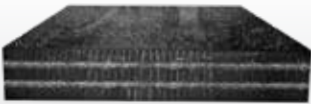

For drives with highly irregular load changes and sustained, high power transmission

### V belt

With low-stretch tension member and upgraded compound for high power transmission at high loads

## Conveyor Belt

### Pathfinder Plus & ContiAgriFlex Belts

Grain elevator, grain storage and grain transfer. Includes bucket elevators. Flame- and oil-resistant with anti-static properties and standard cover thickness.

WIDTHS	PLY	LENGTHS
Up to 96"	Up to 6-ply	Up to 1000'

## Air Springs

### Convoluted

Designed for vibration isolation or actuation. Offered with imperial or metric threads. Available in single, double and triple crimped convoluted assemblies.

**Standard Material**  
Natural Rubber (NR)

**Optional Materials**  
Chloroprene Rubber (CR)  
Epichlorohydrin Rubber (ECO)

**Working Pressure (Max)**  
8 bar

## Industrial

### Versiflo 150

This is a general-purpose water suction and discharge hose for light- to medium-duty applications. It can be used in various industrial, agricultural and construction areas. This hose can be used in Lasso applications.

COLOR	HOSE ID
	1" - 12"

### Spiraflex Air Seeder

For dry conveying of seeds and other materials where abrasion is present and service conditions are moderate. Excellent for low-pressure blowing applications.

COLOR	HOSE ID
	1" - 4"

### Green Hornet

Medium-duty, lightweight construction; retains flexibility in cold weather. Smooth-bore tube minimizes material buildup and resists a variety of chemicals found in agricultural and sanitary industries. Slightly corrugated outer helix promotes abrasion resistance, low coefficient of friction and ease of coupling.

COLOR	HOSE ID
	1 1/4" - 6"

### Spiraflex 1600

For water suction and discharge service in construction and septic tank cleaning operations, and for general industrial and agricultural applications where mild chemical resistance is required.

COLOR	HOSE ID
	3/4" - 10"

### Spiraflex Aggie

For water suction and discharge service in construction and septic tank cleaning operations, and for general industrial and agricultural applications where mild chemical resistance is required.

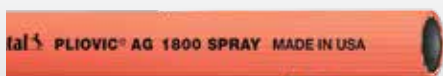

COLOR	HOSE ID
	3/4" - 6"

## Industrial

### Ag Spray 1800

A lightweight, economical high-pressure hose for carrying air, water and many spray solutions in agricultural applications: including Xylene up to 10% concentration.

COLOR HOSE ID  
 3/8" - 3/4"

### NR Spray

A premium-quality, all-purpose hose for handling a variety of applications such as paint spray or agricultural spray. Will handle spraying paints, automotive finish paints, lacquers, thinners, turpentine, air, oil and a large variety of solvents and chemicals.

COLOR HOSE ID  
 1/4" - 1"

### Spiraflex Agflex

For water suction and discharge service in construction and septic tank cleaning operations and is for general industrial and agricultural applications where mild chemical resistance is required.

COLOR HOSE ID  
 1" - 6"

### Frontier

Frontier is an economical air and water hose covering a wide range of industrial, construction and agricultural applications. Available in 200 and 300 PSI working pressures.

COLOR HOSE ID  
  3/16" - 2"  
   

### Sureline

For a wide range of industrial, construction and agricultural water discharge applications in which a general service water hose is needed.

COLOR HOSE ID  
 1/4" - 1 1/2"

# Around the Farm

## Off-Highway Hose

### 20R3 D2 Heater Hose

Premium construction SAE 20R3 D2 Heater Hose is a high-quality heater hose designed to offer extra long service life on automotive and truck cooling system applications.

COLOR	HOSE ID
	3/8" - 1"

### Blue Xtreme Heater Hose

For water suction and discharge service in construction and septic tank cleaning operations and is for general industrial and agricultural applications where mild chemical resistance is required.

COLOR	HOSE ID
	3/8" - 1 1/4"

### SAE 30R7

This hose meets or exceeds SAE 30R7 specifications. It can be used for vacuum lines, emission/vapor, oil vent, diesel and up to B20 Biodiesel fuel lines, oil return and even as a coolant hose for return/overflow tanks. 30R7 may be used with diesel, but it is not a true fuel hose; rather, it is used as a drain hose for vapor.

COLOR	HOSE ID
	1/8" - 3/4"

### SAE J30R9

Low perm hose designed specifically for auto and truck fuel injection systems. Continental SAE J30R9 is CARB approved (Q-10-004) with a maximum fuel permeation of 15g/m2/day at 104°F (40°C) and certified to EPA EVTIPLINE110-001.

COLOR	HOSE ID
	1/4" - 1/2"

## Power Transmission Belt

### **Multirib PK**

With low-stretch tension member for high power transmission at high loads. A very smooth-running power transmission belt, which is also suitable for small installation spaces

### **V belt**

With low-stretch tension member and upgraded compound for high power transmission at high loads

## Air Springs

### **Sleeve**

Designed for vibration isolation or actuation. Offered with imperial or metric threads in various sizes and shapes.
