Radiator Caps Oil Caps and Fuel Caps

Tridon Australia Pty Ltd is an Australian owned company and supplies the automotive, original equipment, industrial and hardware markets in Australia and New Zealand. Quality and customer service are of utmost importance. Tridon's distribution and manufacturing facilities are ISO9001/TS16949 quality and ISO14001 environmentally accredited.

Tridon offers an extensive range of automotive caps to suit Japanese, American, European, Korean and Australian built vehicles including:

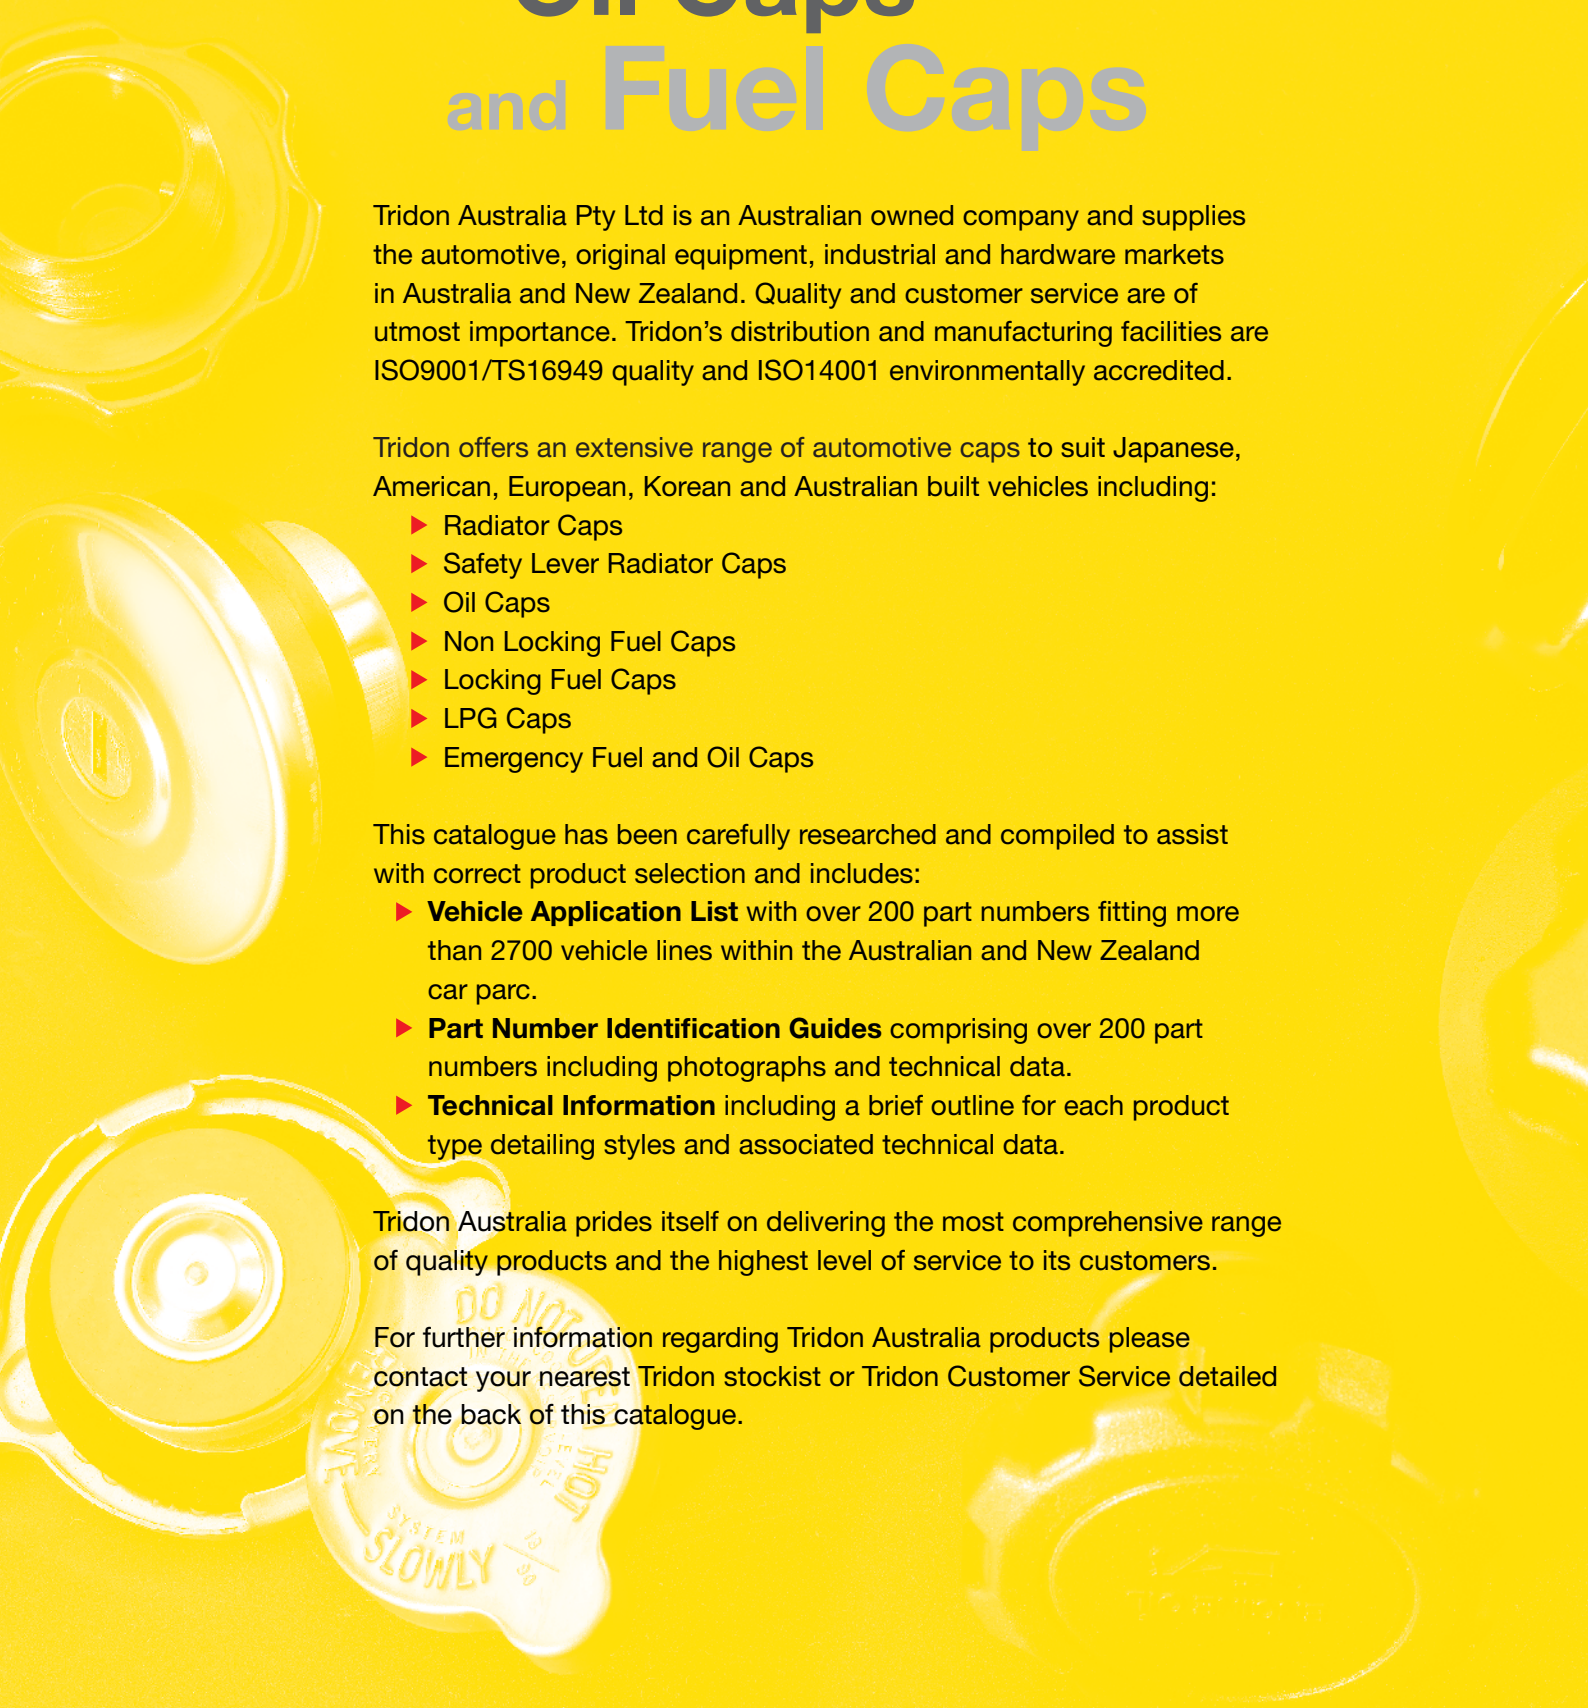

- ▶ Radiator Caps
- ▶ Safety Lever Radiator Caps
- ▶ Oil Caps
- ▶ Non Locking Fuel Caps
- ▶ Locking Fuel Caps
- ▶ LPG Caps
- ▶ Emergency Fuel and Oil Caps

This catalogue has been carefully researched and compiled to assist with correct product selection and includes:

- ▶ **Vehicle Application List** with over 200 part numbers fitting more than 2700 vehicle lines within the Australian and New Zealand car parc.
- ▶ **Part Number Identification Guides** comprising over 200 part numbers including photographs and technical data.
- ▶ **Technical Information** including a brief outline for each product type detailing styles and associated technical data.

Tridon Australia prides itself on delivering the most comprehensive range of quality products and the highest level of service to its customers.

For further information regarding Tridon Australia products please contact your nearest Tridon stockist or Tridon Customer Service detailed on the back of this catalogue.

Tridon Guarantee

Tridon products listed in this catalogue are guaranteed to be free of defects in materials and workmanship for two years.

This guarantee does not apply to:

- Products that have been modified or altered in any way
- Products that have been physically damaged or misused
- Products that have not been fitted in the correct vehicle application
- Products that have not been fitted correctly
- Product failure due to alternate system component failure

Product Range

Radiator Caps

The radiator cap is designed to seal the cooling system to prevent coolant loss, maintain pressure within the cooling system and raise the boiling point of the coolant. Radiator caps are manufactured using either metal or plastic design suitable for use on sealed recovery or open non recovery vehicle cooling systems.

Safety Lever Caps

Safety lever caps are manufactured using metal design, utilising a metal safety locking lever to lock the cap into position. Safety lever caps enable system pressure release before cap removal and are suitable for both performance and mining applications.

Oil Caps

The oil cap is designed to cover the orifice used to fill or top up the engine oil supply sealing the vehicle lubrication system. Oil caps are manufactured using either metal, plastic or rubber design and are available in various styles including metal bayonet, plastic screw and rubber push in designs.

Fuel Caps

Fuel caps are designed to seal the vehicle fuel system to prevent evaporation and contamination. Fuel caps are manufactured using either metal or plastic design suitable for use on sealed (non vented), or open (vented) fuel systems. Fuel caps are available in both locking and non-locking options in various styles including metal bayonet, plastic screw and push and turn designs.

Emergency Caps

Emergency caps are designed for short term sealing of vehicle fuel or engine oil systems. Available in both plastic and rubber design, emergency caps should only be used as a temporary replacement and should be replaced with the correct cap at the earliest opportunity.

Merchandising

Attractive merchandiser designed for wall or gondola mounting.
Dimensions: 450mm (w) x 380mm (h)

Radiator Cap Workshop Merchandiser

With popular, fast moving radiator caps suitable for automotive repairers.
Contains 8 part numbers with 18 radiator caps in total.

Part No. TCM02 Contents:

Part No.	Qty	Part No.	Qty
CA1390	3	CB1390	3
CA15100	2	CC1390	2

Rotary Automotive Cap Merchandiser

Convenient store and display system containing a wide range of 97 caps:

- 54 radiator caps (20 part numbers)
- 14 oil caps (14 part numbers)
- 9 locking fuel caps (8 part numbers)
- 14 non locking fuel caps (8 part numbers)
- 6 emergency fuel caps (2 part numbers)

Vehicle Application List

Vehicle makes and models are listed in alphabetical order with the corresponding year, cylinder and engine size.

Applications for each product are listed with the appropriate Tridon part number and product groups are colour coded for easy identification.

Part Number				
Radiator	Lever	Oil Cap	Fuel Cap Non Locking	Fuel Cap Locking

Reference should be made to the vehicle application prior to selection of the replacement part to ensure that the correct part is supplied for the vehicle.
